[PROPOSED] SCHEDULING ORDER

This ___ day of December, 2025 the Court having conducted an initial scheduling conference pursuant to Federal Rule of Civil Procedure 16(b) and Local Rule 16.1(b), and the parties having determined after discussion that the matter cannot be resolved at this juncture by settlement, voluntary mediation, or binding arbitration;

IT IS HEREBY ORDERED that:

1. Rule 26(a)(1) Initial Disclosures and E-Discovery Default Standard. The parties made their initial disclosures pursuant to Federal Rule of Civil Procedure 26(a)(1) on **November 10, 2025**. If they have not already done so, the parties are to review the Court’s Default Standard for Discovery, Including Discovery of Electronically Stored Information (“ESI”), which is posted at <https://www.ded.uscourts.gov/default-standard-discovery> and is incorporated herein by reference.

2. Joinder of Other Parties and Amendment of Pleadings. All motions to join other parties, and to amend or supplement the pleadings, shall be filed on or before **June 30, 2026**. Unless otherwise ordered by the Court, any motion to join a party or motion to amend the pleadings shall be made pursuant to the procedures set forth in Paragraphs 8(g) and 9 below.

3. Application to Court for Protective Order. Should counsel find it will be necessary to apply to the Court for a protective order specifying terms and conditions for the disclosure of confidential information, counsel should confer and attempt to reach an agreement on a proposed form of order and submit it to the Court by **December 12, 2025**. If counsel are unable to reach an agreement on a proposed form of protective order, counsel must follow the provisions of Paragraph 8(g) below.

Any proposed protective order must include the following paragraph:

Other Proceedings. By entering this order and limiting the disclosure of information in this case, the Court does not intend to preclude another court from finding that information may be relevant and subject to disclosure in another case. Any person or party subject to this order who becomes subject to a motion to disclose another party's information designated "confidential" [the parties should list any other level of designation, such as "highly confidential," which may be provided for in the protective order] pursuant to this order shall promptly notify that party of the motion so that the party may have an opportunity to appear and be heard on whether that information should be disclosed.

4. Papers Filed Under Seal. In accordance with section G of the Revised Administrative Procedures Governing Filing and Service by Electronic Means, a redacted version of any sealed document must be filed electronically within seven (7) days of the filing of the sealed document.

Should any party intend to request to seal or redact all or any portion of a transcript of a court proceeding (including a teleconference), such party should expressly note that intent at the start of the court proceeding. Should any party subsequently choose to make a request for sealing or redaction, it must, promptly after the completion of the transcript, file with the Court a motion for sealing/redaction, and include as attachments (1) a copy of the complete transcript highlighted so the Court can easily identify and read the text proposed to be sealed/redacted, and (2) a copy of the proposed redacted/sealed transcript. With such request, the party seeking redactions must

demonstrate why good cause exists for the redactions and why disclosure of the redacted material would work a clearly defined and serious injury to the party seeking redaction.

5. Courtesy Copies. The parties shall provide to the Court two (2) courtesy copies of all briefs and any other document filed in support of any briefs (*i.e.*, appendices, exhibits, declarations, affidavits, etc.). This provision also applies to papers filed under seal. All courtesy copies shall be double-sided. Exhibits and attachments must be separated by tabs, and the parties should highlight the portions of the exhibits and attachments that they wish the Court to read.

6. ADR Process. This matter is NOT referred to a magistrate judge to explore the possibility of alternative dispute resolution.

7. Disclosures. Absent agreement among the parties, and approval of the Court:

(a) Core Technical Documents. On or before **January 12, 2026**, Defendant shall produce core technical documents related to the accused product(s) sufficient to show the functionality of the accused products, including but not limited to non-publicly available operation manuals, product literature, schematics, and specifications. Defendant shall also produce sales figures for the accused product(s).

(b) Claim and Reference Narrowing. By **April 28, 2026**, the parties shall meet and confer regarding the claims and prior art references raised by the initial infringement and invalidity contentions and determine if claim and prior art reference narrowing is appropriate, and, if so, to determine the extent of such narrowing. To the extent the parties are unable to reach agreement, they will submit alternative proposals to the Court regarding narrowing the scope of asserted claims and cited references.

(c) Infringement Contentions. On or before **February 11, 2026**, Plaintiff shall provide its initial infringement contentions for each asserted claim. On or before **March 20, 2026**,

Defendant shall provide its initial non-infringement contentions in response to Plaintiff's initial contentions. On or before **[Plaintiff Illumina: July 15, 2026] [Defendant Element: September 30, 2026]**, Plaintiff shall provide its final infringement contentions. On or before **[Plaintiff Illumina: August 19, 2026] [Defendant Element: October 28, 2026]**, Defendant shall provide its final non-infringement contentions in response to Plaintiff's final contentions. The final contentions shall be subject to limits agreed to by the parties following exchange of initial contentions, if any.

(d) Invalidity Contentions. On or before **March 13, 2026**, Defendant shall provide its initial invalidity contentions for each asserted claim and the related invalidating references. On or before **April 10, 2026**, Plaintiff shall provide its initial validity contentions in response to Defendant's initial contentions. On or before **[Plaintiff Illumina: July 29, 2026] [Defendant Element: October 14, 2026]**, Defendant shall provide its final invalidity contentions. On or before **[Plaintiff Illumina: August 19, 2026] [Defendant Element: November 11, 2026]**, Plaintiff shall provide its final validity contentions in response to Defendant's final contentions. The final contentions shall be subject to limits agreed to by the parties following exchange of initial contentions, if any.

(e) All final contentions (i.e., infringement, non-infringement, invalidity, validity) must include a party's contentions under its proposed claim construction(s), as well as under the opposing claim construction(s) (if such an alternative contention exists).

8. Discovery. Unless otherwise ordered by the Court or agreed to by the parties, the limitations on discovery set forth in the Federal Rules shall be observed.

(a) Identification of Accused Products and Asserted Patents. On or before **December 12, 2025**, Plaintiff shall identify the accused product(s), including accused methods

and systems, the asserted patent(s) and Plaintiff's damages theory. On the same date, Plaintiff shall also produce the prosecution history for each asserted patent.

(b) Fact Discovery Cutoff. All discovery in this case shall be initiated so that it will be completed on or before **[Plaintiff Illumina: August 14, 2026] [Defendant Element: November 20, 2026]**.

(c) Document Production. Document production shall be substantially complete by **[Plaintiff Illumina: April 17, 2026] [Defendant Element: July 29, 2026]**.

(d) Requests for Admission. A maximum of 50 requests for admission are permitted for each side. Each party may serve unlimited requests for admission concerning authentication and admissibility.

(e) Interrogatories.

i. A maximum of 25 interrogatories, including contention interrogatories, are permitted for each side.

ii. The Court encourages the parties to serve and respond to contention interrogatories early in the case. In the absence of agreement among the parties, contention interrogatories, if served, shall first be addressed by the party with the burden of proof. The adequacy of all interrogatory answers shall be judged by the level of detail each party provides (*i.e.*, the more detail that a party provides, the more detail the party shall receive).

(f) Depositions.

i. Limitation on Hours for Deposition Discovery. Each side is limited to a total of **70** hours of taking testimony by deposition upon oral examination of witnesses pursuant to Fed. R. Civ. P. 30(b)(1) and 30(b)(6). For expert depositions, each side may take a single deposition for each expert, with a limit of seven (7) hours. However, if an expert offers

opinions across two substantive areas, for example, opinions on both infringement and validity, the expert may be deposed for up to fourteen (14) hours.

ii. Location of Depositions. Any party or representative (officer, director, or managing agent) of a party filing a civil action in this district court must ordinarily be required, upon request, to submit to a deposition at a place designated within this district. Exceptions to this general rule may be made by order of the Court or by agreement of the parties. A defendant who becomes a counterclaimant, cross-claimant, or third-party plaintiff shall be considered as having filed an action in this Court for the purposes of this provision.

(g) Disclosure of Expert Testimony.

i. Expert Reports. For the party who has the initial burden of proof on the subject matter, the initial Federal Rule of Civil Procedure 26(a)(2) disclosure of expert testimony is due on or before **[Plaintiff Illumina: February 4, 2027] [Defendant Element: June 3, 2027]**. The supplemental disclosure to contradict or rebut evidence on the same matter identified by another party is due on or before **[Plaintiff Illumina: March 4, 2027] [Defendant Element: July 1, 2027]**. Reply expert reports from the party with the initial burden of proof are due on or before **[Plaintiff Illumina: March 25, 2027] [Defendant Element: July 29, 2027]**. No other expert reports will be permitted without either the consent of all parties or leave of the Court. Along with the submissions of the expert reports, the parties shall advise of the dates and times of their experts' availability for deposition.

ii. Expert Report Supplementation. The parties agree that, aside from expert reports submitted in the normal course of expert discovery, expert declarations shall be submitted only in connection with claim construction.

iii. Objections to Expert Testimony.

To the extent that any objection to expert testimony is made pursuant to the principles announced in *Daubert v. Merrell Dow Pharmaceuticals, Inc.*, 509 U.S. 579 (1993), as incorporated in Federal Rule of Evidence 702, it shall be made by motion no later than the deadline for dispositive motions set forth herein, unless otherwise ordered by the Court. Briefing on such motions is subject to the page limits set out in connection with briefing of case dispositive motions.

iv. Expert Discovery Cutoff. All expert discovery in this case shall be initiated so that it will be completed on or before **[Plaintiff Illumina: April 22, 2027] [Defendant Element: August 27, 2027]**.

(h) Discovery Matters and Disputes Relating to Protective Orders.

i. Any discovery motion filed without first complying with the following procedures will be denied without prejudice to renew pursuant to these procedures.

ii. Should counsel find that, after reasonable efforts pursuant to Local Rule 7.1.1, they are unable to resolve a discovery matter or a dispute relating to a protective order, the moving party (*i.e.*, the party seeking relief from the Court) should file a Motion for Teleconference to Resolve a Discovery or Protective Order Dispute. The text for this motion can be found in the “Forms” section of Magistrate Judge Tennyson’s portion of the Court’s website.

iii. After reviewing the motion, the Court will issue an order setting a discovery conference and outlining the specific dispute procedure to be used. On the date set by court order, generally not less than seventy-two (72) hours prior to the conference, the party seeking relief shall file with the Court a letter not to exceed three (3) pages in 12-point font outlining the issues in dispute and that party’s position on those issues. This submission shall include as exhibits (1) a proposed order that identifies with specificity the relief sought on an issue-

by-issue basis and (2) copies of any discovery requests and responses relating to the dispute. On the date set by court order, generally not less than forty-eight (48) hours prior to the conference, any party opposing the application for relief may file a letter not to exceed three (3) pages in 12-point font outlining that party's reason for its opposition.

iv. Should the Court find further briefing necessary upon conclusion of the conference, the Court will order it. Alternatively, the Court may choose to resolve the dispute prior to the conference and will, in that event, cancel the conference.

9. Motions to Amend / Motions to Strike.

(a) Any motion to amend (including a motion for leave to amend) a pleading or any motion to strike any pleading or other document shall be made pursuant to the discovery dispute procedure set forth in Paragraph 8(g) above.

(b) Any such motion shall attach the proposed amended pleading (as well as a "redline" comparison to the prior pleading or the document proposed to be stricken.

10. Technology Tutorials. Although technology tutorials are not required by the Court, they are appreciated and, if any party chooses to file such a tutorial, it shall be submitted on or before the date that the joint claim construction brief is filed.

11. Claim Construction Issue Identification. On **[Plaintiff Illumina: April 14, 2026]** **[Defendant Element: September 9, 2026]**, the parties shall exchange a list of claim term(s)/phrase(s) that they believe need construction and their proposed claim construction of those term(s)/phrase(s). This document will not be filed with the Court. Subsequent to exchanging that list, to guide the parties in preparing their final contention charts, the parties shall exchange claim constructions for terms proposed by other side on **[Plaintiff Illumina: April 21, 2026]** **[Defendant Element: September 16, 2026]**, and the parties shall exchange intrinsic evidence

citations supporting their proposed constructions by **[Plaintiff Illumina: April 24, 2026]** **[Defendant Element: September 18, 2026]**. The parties will meet and confer to prepare a joint claim construction chart to be submitted two weeks prior to service of the opening claim construction brief. The parties' joint claim construction chart must identify for the Court the term(s)/phrase(s) of the claim(s) in issue and must include each party's proposed construction of the disputed claim language with citation(s) only to the intrinsic evidence in support of their respective proposed constructions. All joint claim construction charts shall be in substantially the same form as the sample joint claim construction chart found in the "Forms" section of Magistrate Judge Tennyson's portion of the Court's website. Intrinsic evidence (including copies of the patent(s) at issue) shall NOT be attached to the joint claim construction chart and, instead, the parties shall include a joint appendix with the joint claim construction brief, and the joint appendix shall include a copy of the patent(s) at issue and portions of all relevant intrinsic evidence, as well as any additional evidence cited in the parties' briefing.

12. Claim Construction Briefing. Plaintiff shall serve, but not file, its opening brief, not to exceed 20 pages, on **[Plaintiff Illumina: September 9, 2026]** **[Defendant Element: December 8, 2026]**. Defendant shall serve, but not file, its answering brief, not to exceed 30 pages, on **[Plaintiff Illumina: October 7, 2026]** **[Defendant Element: January 12, 2027]**. Plaintiff shall serve, but not file, its reply brief, not to exceed 20 pages, on **[Plaintiff Illumina: October 28, 2026]** **[Defendant Element: February 2, 2027]**. Defendant shall serve, but not file, its sur-reply brief, not to exceed 10 pages, on **[Plaintiff Illumina: November 10, 2026]** **[Defendant Element: February 23, 2027]**. No later than **[Plaintiff Illumina: November 13, 2026]** **[Defendant Element: February 26, 2027]**, the parties shall file a joint claim construction brief. The parties shall copy and paste their unfiled briefs into one brief, with their positions on

each claim term in sequential order, in substantially the form below. If the joint brief as submitted is more than 80 pages, the parties must certify that the page limits in the Scheduling Order have not been violated and provide a brief explanation (e.g., formatting issues, listing of agreed-upon terms, etc.) as to why the brief is longer than 80 pages.

14. Case Dispositive Motions.

Each fact asserted by the opposing party shall also be set forth in a separate numbered paragraph and shall be supported by specific citation(s) to the record.

Unless otherwise ordered by the Court, each side will be allocated a total of forty-five minutes to present its argument on all pending motions.

¹ The parties must work together to ensure that the Court receives no more than a ***total*** of 250 pages (*i.e.*, 50 + 50 + 25 regarding one side's motions, and 50 + 50 + 25 regarding the other side's motions) of briefing on all case dispositive motions and *Daubert* motions that are covered by this scheduling order and any other scheduling order entered in any related case that is proceeding on a consolidated or coordinated pretrial schedule.

15. Applications by Motion. Except as otherwise specified herein, any application to the Court shall be by written motion. Any non-dispositive motion must contain the statement required by Local Rule 7.1.1.

16. Motions *in Limine*. Motions *in limine* shall not be separately filed. All *in limine* requests and responses thereto shall be set forth in the proposed pretrial order. Each ***SIDE*** shall be limited to three (3) *in limine* requests, unless otherwise permitted by the Court. Unless otherwise ordered by the Court, the parties shall comply with the timeframes set forth in Local Rule 16.3(d) for the preparation of the joint proposed final pretrial order.

The parties shall provide the Court two (2) double-sided courtesy copies of the joint proposed final pretrial order and all attachments. The proposed final pretrial order shall contain a table of contents and the paragraphs must be numbered.

18. Jury Instructions, Voir Dire, and Special Verdict Forms. 20. Judgment on Verdict and Post-Trial Status Report. Within seven days after a jury returns a verdict in any portion of a jury trial, the parties shall jointly submit a form of order to

² Five days (*i.e.*, about ten to thirteen hours per side) is the presumptive length of a patent jury trial. If the parties think it is obvious that this will not be enough, they may put in a different length and should be prepared to explain why at the Rule 16 conference. A final decision on the precise length of trial will not be made before the final pretrial conference. **Plaintiff Illumina's Position:** The breadth of the technologies in this case warrants an eight-day jury trial. **Defendant Element's Position:** The presumptive five-day trial length is appropriate for this case.

enter judgment on the verdict. At the same time, the parties shall submit a joint status report, indicating among other things how the case should proceed and listing any post-trial motions each party intends to file.

21. Post-Trial Briefing. Unless otherwise ordered by the Court, all *sides* are limited to a maximum of 20 pages of opening briefs, 20 pages of answering briefs, and 10 pages of reply briefs relating to any post-trial motions filed by that side, regardless of the number of motions filed.
